Superior quality raw materials like kaolin, clay, feldspar, silica and colouring inks are imported from Europe and other parts of the world to manufacture Mega Slabs, without compromising on its breaking strenght, water absorption, dust, termite and chemical resistance.

Mega Slabs are exceptionally hard, resist thermal shock better than any material available today, are virtually non-porous and are green product. Installation is quicker and easier because of the dimesions of the product

Note: Shade variation across the batches is inherent to the manufacturing process and the pre-laying colour comparison is recommended.

Hinweis: Bedingt durch den Herstellungsprozess kann es zu Farbabweichungen zwischen den unterschiedlichen Chargen kommen. Es wird empfohlen die Farben vor dem Verlegen zu vergleichen.
